LONDON, March 14.—Accusing Reichsfuehrer Adolf Hitler of open aggression in his "bloodless conquest" of Austria, Prime Minister Neville Chamberlain told the house of commons today that nothing could have stemmed his aspirations but a declaration of war.

"The hard fact," he said, "is that nothing could have stemmed this action by Germany unless we and others had been prepared to use force to prevent it."

Announcing that Britain will accelerate her rearmament if necessary, Chamberlain laid the following resume before a packed house of commons:

1.—Britain vigorously and repeatedly protested any interference by Germany in Austria's independence.
2.—In reply, Germany flatly denied the right of Britain to assume the role of protector of Austrian independence.
3.—A careful study of the events which preceded Hitler's annexation of Austria proves that despite German demands, the Fuehrer actually did present an ultimatum to former Chancellor Kurt Schuschnigg.
4.—Great Britain remains keenly interested in central European affairs and particularly in the status of Czechoslovakia at present.
5.—Allegations Britain tacitly condoned the seizure of Austria are without foundation.
6.—Great Britain remains strongly opposed "to the application by Germany of violent methods which must exercise a damaging influence upon the general confidence of Europe."

PA NEW OBSERVES

Tuesday is the deadline for filing of income tax reports for the year.

The blue streaks of ashes which were piled at various places along the highways of the district at the beginning of winter, have greatly diminished and but slight traces still remain, the ashes having been used on the highways during the slippery weather to prevent accidents.

The grounds surrounding the Christ Lutheran church, corner of Rockford and East Washington streets, which was constructed but a short time ago, are very attractive. Many small trees and shrubs have been planted and are attractive although still a few days away from spring.

City workers were busy engaged Saturday clearing ashes and accumulated debris from the sides of the Rural avenue hill.

Believe Preparedness Means Peace For U. S.

By ROBERT HUMPHREYS

WASHINGTON, March 14.—With assurances that preparedness in a world torn by conflict means peace for this nation, administration leaders today started the billion-dollar naval expansion bill through congress.

Brushing aside charges that rearmament may involve the United States in another war, the leaders placed the bill before a house membership committee tense with watching the rapid-fire developments of a fresh European crisis and the unabated warfare in the far east.

Debate in the lower chamber, scheduled to last a week, promised a

complete airing of the international situation and this government's relations with other powers, eddy enough, it coincided with mobilization of the fleet in San Diego today for the 1938 war games in the Pacific.

Speaker Bankhead, while terming rearmament "regrettable," flatly predicted quick house approval of the expansion measure "with votes to spare."

"The bill will be passed by the house by a substantial majority and without any changes of consequence," he declared. "I believe most Democratic and Republican members alike are convinced that if this country is to maintain peace, we must match the naval building of the other powers."

Mrs. 'Billy' Sunday Is Heard At Two Services

Crowds filled the large First M. E. church auditorium twice on Sunday—in the afternoon and in the evening—to hear Mrs. William "Ma" Sunday, beloved widow of the great evangelist, when preaching inspired a nation, recall her late husband's interest in mission work generally and to again declare her faith in the eminent service of all City Rescue Missions.

She spoke from the heart, for almost everyone in America knows how great an interest Billy Sunday had in mission work. New Castle knows that for the City Rescue Mission here, like those in many cities, was born out of his memorable evangelistic campaign of over two decades ago.

The City Rescue Mission sponsored yesterday's public services which climaxed the organization's week-long observance of the first anniversary of Superintendent Archie W. Gibson's leadership here.

Mrs. Sunday was still in the city today, a guest at The Castleton. She goes to Cleveland tomorrow to take part in special meetings there. Superintendent Gibson of the mission introduced Mrs. Sunday to both.

Selling Liquor To Minors Will Bring Arrests

Mayor McGrath Says Informants Are To Be Made Against Proprietors

Mayor Charles E. McGrath today stated that some time today Police Chief Ralph A. Criswell will swear out warrants against several proprietors of beer and liquor places in which the proprietors will be charged with selling liquor to minors.

The mayor stated that "I am tired of the way some of the proprietors are conducting their places and have determined upon a course of action."

He said that, instead of turning the information over to the State Liquor Control Board, he would have city police bring the prosecutions.

The mayor's decision was reached today after he had been informed that Saturday, two persons, both said to be minors, had been served with intoxicating beverages.

PARIS, March 14.—Blind to cataclysmic events occurring abroad, opposition forces today handicapped Premier Leon Blum's efforts to overcome France's internal crisis as reports spread Reichsfuehrer Adolf Hitler is preparing for a "knockout blow" in Spain.

The traditional French solidarity in time of external strife was lacking as reports gained momentum that Hitler has supplied Generalissimo Francisco Franco with the necessities for a smashing insurgent drive on Madrid.

Auto Dealers To Extend Used Car Sales Week

Stimulation Of Industry In General Justifies Extension Of Sales Effort

WILL PEP UP ALL BUSINESS

Pleased with the tremendous success of National Used Car Exchange Week, which was nationally observed last week, and appreciative of the general stimulation of business which will result, local automobile dealers are extending the event here for another week, it was announced by William A. Francis, president of the New Castle Auto Dealers Association.

In commenting on the matter, Mr. Francis stated that the country today is dependent on the automobile business for its economic welfare more than any other industry.

In years gone by, agriculture was looked upon as the business barometer, and it business was good with the farmer, it would be good with the country in general. Later, the railroad supplanted agriculture as the business barometer. Today, it is the automobile business, which makes business good in the United States.

Statistics have shown, Mr. Francis pointed out, that the purchase of a new automobile provides one day's work for 76 men. What this amounts to in this country can be

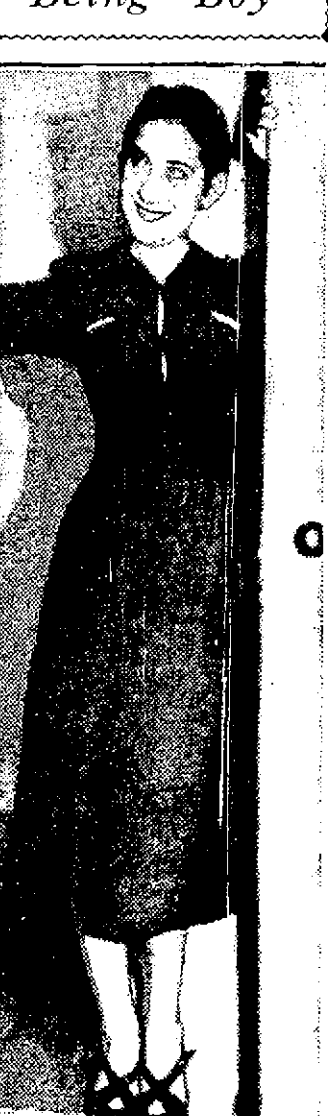

Favor Repeal Of Profits Tax

(International News Service)
WASHINGTON, March 4.—Outright repeal of the corporation undistributed profits tax was favored today by 10 of the 16 members of the senate finance committee, as treasury experts pleaded the house approved bill falls \$22,000,000 short of the \$3,330,000,000 of needed revenue.

Substitution of a flat corporation levy of 10 or 18 per cent was advocated by the committee majority with chairman Pat Harrison (D) of Mississippi, taking the lead.

Under-secretary of the treasury Roswell Magill was said to have told the committee at its secret session for examination of the house bill that it will not provide the needed revenue.

Tired of being a "boy," Katherine Vine, 16, of San Francisco, has begun wearing girl's clothes for the first time so she can be a young lady on her 17th birthday. Katherine was christened a girl in Johnstown, Pa., in 1921, but was given the name "George" by her mother because there already were two girls and her mother wanted a boy to help provide for the family. Katherine, who soon will return to Chicago, where her mother and sisters live, is surprised anyone believes her life unusual. "Why, if I lived as a girl I wouldn't have been able to work and help the family."

Clarence Darrow Dead In Chicago

Great Criminal Lawyer Dies As He Lived, A Bewildered Agnostic

(International News Service)

CHICAGO, March 14.—Perhaps Clarence Darrow knows the answer today, the answer to the one question for which he had no answer. For Darrow is dead.

The great criminal lawyer died as he lived, a bewildered agnostic. He passed away quietly yesterday at his home following a two month's illness. He would have been 81 on April 18.

Darrow took sides with vehemence throughout his life on every subject except that of God. He lacked any court fight without thought of surrender, brushing aside the consequences of public opinion, once he had made up his mind that he was right, but on the subject of religion he threw up his hands.

Once he said: "Life is not worth living. The whole world is just a bughouse and I'll be glad to get out of it."

And yet he turned his back on high positions to save the lives of

World Developments In Austrian Seizure

(International News Service)

Adolf Hitler rode in triumph into Vienna today, and his new province of Austria moved with even greater speed towards complete Nazification with the enactment of laws covering Jews, churches, and finances. International developments:

Under Hitler Chancellor Arthur Seyss-Inquart, ruled, having forced President Miklas to resign. Hitler ordered plebiscite to confirm the union on April 10. He took command of the Austrian army.

BERLIN—Austrian legations were placed under direct control of German embassies and legations. Austria's status with relation to Germany will be like that of a state's relation to the federal government in America.

PARIS—Appointment of Joseph Paul-Boncour as foreign minister indicated a more vigorous French foreign policy. Paris said, however, threatened the new Blum government. Paris heard that Hitler planned his next stroke in Spain.

LONDON—An emergency meeting of the cabinet planned a rearmament speed-up and discussed a modified form of arms conscription.

SAN DIEGO—The fleet mobilized for beginning of the 1938 war games.

Many New Regulations Imposed Upon Austria As Hitler Takes Nation

VIENNA, March 14.—The gigantic task of fitting Austria into the anti-Semitic German Reich began in earnest today as Reichsfuehrer Adolf Hitler moved out of Linz in triumph procession enroute to his newest provincial capital.

Ordinances were enacted affecting Jews, churches, sports, finances—and the clubs of policemen.

The new laws exclude Jews from the practice of law or from holding judicial office, depriving about 7,000 persons of their livelihood. This number includes some 70 per cent of all the lawyers in Austria.

Next will come banning of Jewish doctors from the practice of medicine, affecting about 60,000 or 55 per cent of all Austrian physicians, and then journalists, affecting about 1,000.

Another decree unites the Evangelical church of Austria with that of Germany.

Broadcast Lasts Hours
The population listened for hours today to the broadcast of a new law regulating finance and business transactions to conform with Germany's planned economy.

These laws and many more to come are Austria's lot in the most dramatic military coup of modern times which marks this ancient nation's absorption into the Reich.

VIENNA, March 14.—A competing hero with all Austria at his feet, Reichsfuehrer Adolf Hitler rode triumphantly into Vienna at 5:45 p. m. tonight (11:45 a. m. E. S. T.).

Sitting and waving from the front seat of his 150-mile-an-hour automobile, the Fuehrer acknowledged with obvious pride the adulation heaped upon him by the capital he left a quarter-century ago as an obscure house-painter and to which he returned as a modern Napoleon.

The Fuehrer would his way into the heart of the town's prominent capital from the city of Linz as the head of a motor cavalcade consisting of a score of official cars and thirteen more containing secret service men.

Through streets jammed with countless cheering thousands, the Fuehrer car was driven directly to the Imperial Hotel, once the residence of Austrian Archdukes.

Hull Refuses To Abandon Trade Parleys

(BULLETIN)
(International News Service)

WASHINGTON, March 14.—Secretary of State Hull today flatly refused the request of 15 New England members of the house for abandonment of America's trade treaty negotiations, holding they are the greatest single factor for peace in the world.

In a six-page letter addressed to the representatives, the secretary put into strong language his conviction that a halt in the trade treaty program at this time would mean world-wide economic warfare and materially impair this nation's foreign commerce.

The New Englanders proposed a delay in the negotiations until foreign production costs were ascertained.

Hull's letter was made public at hearings preliminary to negotiations for a trade agreement with Great Britain which got underway here today.

Greatest Recruiting Campaign Since World War Days Now Imminent

LONDON, March 14.—(Continued from page one.)—The British government today announced that it had decided to speed up its rearmament program and to launch the greatest recruiting campaign since the days of the world war. The government also announced that it had decided to increase the size of the air force and to speed up its rearmament program.

For the first time, responsibility for the defense of the British empire is being placed on the shoulders of the British people. The government has decided to speed up its rearmament program and to launch the greatest recruiting campaign since the days of the world war.

Compulsory service in the British army is being considered. The government has decided to speed up its rearmament program and to launch the greatest recruiting campaign since the days of the world war.

This amounts to a conscription which Great Britain has always avoided except in war time. A high-spirited speech in parliament, especially as concerns the air force, is a foregone conclusion. The question now is merely the rate of acceleration.

That the cabinet is unlikely to agree to make any positive commitments regarding the independence of Czechoslovakia was learned from reliable sources. It is believed the most Premier Chamberlain will do is warn Hitler that the nations of Europe cannot continue to permit military invasions of neighboring states.

Chamberlain would back this up with the strongest condemnation of Germany's invasion of Austria, reiterating that it will have the gravest effect on Anglo-German relations.

It was also doubted that Britain would give France any assurances on the Czechoslovakian question, even secretly.

The cabinet also planned speeding conversations with Italy which, it is hoped, will weaken the Rome-Berlin axis.

REPORT HITLER PLANNING MOVE IN SPAIN NOW

(Continued From Page One)

Spain to Spain of heavy artillery, aircraft and munitions to guarantee success of his rebel drive.

France now has more than 1,000 planes and 600 heavy cannon. Tanks are being assembled in the vicinity of the Pyrenees for a final onslaught. Meanwhile, reflecting the total attacks of rebels and moderates, the Black "popular front" cabinet, the French government, is hitting 32.50 in the dollar at present.

French national socialist supporters have threatened nationwide demonstrations if he permits the formation of a coalition government to drop his social reforms.

New Cabinet Ready.

France, with an eye on the central Europe and a confident one on the Maginot line, turned today, with a new cabinet, towards a more vigorous foreign policy.

Key men in France's leftist stand against Nazi expansion in the Danubian area are Leon Blum, the socialist premier, and Joseph Paul-Boncour, who has taken over the portfolio of foreign affairs from Yvon Delbos.

Paul-Boncour, a League of Nations expert, is expected to deal sharply with future Nazi moves, and also France in being dependent on Britain. Blum, who took the difficult portfolio of the treasury in a trying time for French finances, is also certain to keep close control over the foreign ministry.

Like London, Paris felt that the Germanization of Austria was an accomplished fact about which nothing can be done.

But France was grimly determined that Austria was the last step of the German boot.

Talks with London regarding the future of Czechoslovakia were being held in London and Paris may make a joint demarche regarding its independence.

Others: It was this to which he devoted his life. Although he died comfortably well-to-do, money meant little to Darrow.

Defended Thrill Slayers

He was supposed to have received a fabulous fee for saving the lives of Richard Leeb and Nathan Leopold, Chicago's wealthy young "thrill slayers" of a decade ago. But he contested with as much vigor and as successfully the death threats hanging over many a lesser evildoer.

Darrow started his career as the "great defender" when he won freedom for Eugene V. Debs as chief counsel in the railroad strike of 1894. Successfully he represented the defendant in the Los Angeles Times building and "Big Bill" Haywood for the murder of former Governor Frank Steunenberg of Idaho.

He opposed William Jennings Bryan in the trial of John T. Scopes for teaching evolution in Tennessee and saw the country court's conviction reversed. He came out of retirement to lead the defense in the sensational Massey murder case in Honolulu in 1932.

He is survived by his widow, a son, Paul and a sister.

MEMBERS OF THE UMBERTO PRIMO SOCIETY

Members of the Umberto Primo society gathered in the King Humbert hall, Division street, Sunday afternoon for their monthly meeting. Plans were formulated for a banquet to be held on March 27. Several new members were initiated into the organization. A social period followed.

There was a determined attempt by the new regime of Austria to show that the Nazis would be greeted with one and that rejection of Kurt Schuschnigg and his "crowd" ushers in a new era of quiet.

Every half hour an order was repeatedly broadcast: forbidding storm troops or brownshirts to make arrests, confiscations of possessions without formal authorization.

Simultaneously with announcements all sports organizations will benefit be united with German ones except a communique prohibiting police from using the steel-corded "bills" long familiar to trouble-makers in Vienna.

These had been previously used to good advantage by the Austrian police. They were termed today, however, as "beneath the dignity of the German people."

Bombing Reinforced

Torchlights flamed all night along the Czech-Austrian frontier, and today the Czech army continued tirelessly the effort to reinforce their border, while the day was spent against their weakest neighbor, but now is menaced by the continually increasing flood of the army of Europe's new Napoleon, Adolf Hitler.

Not less than one hundred thousand German troops are today estimated to be in occupation of the new German province of Austria, and it is now plain that what looked at first like a military demonstration to support Hitler's political position of his native land has turned into a strategic advance, which has frightened central Europe like nothing since the end of the last great war.

There is not a country on the continent which is not harassed by the thought of "who is next?"

The primary reason for their uneasiness is the number of German troops now streaming from end to end in Austria.

Continued rain of the past 24 hours has resulted in causing the streams in this area to rise steadily.

Of interesting note is the fact learned by Pa. News that unknown to Mrs. Sam Schuller of North Liberty street, three of her own chickens jumped on the spare tire of her car while it was parked in the rear yard and rode from the Seventh ward toward the Harbor road. When she discovered this and started to investigate, only one of the chickens remained, the other two having probably fallen off or jumped from the tire.

While spring is officially some time distant, grass is beginning to take on a real green hue, reflecting the early mild spring weather that is being experienced.

Large amount of repair work, remodeling, etc., in evidence around the city reflects a fine spirit of faith in the home town.

One of the oldest readers of the New Castle News is A. Moore, of New Galilee. Mr. Moore, who is 93 years of age, reads The News through each day, and looks forward to its arrival with eager anticipation.

Dr. Stanley W. Dr. Barnett, who is the general manager of a Grand Rapids broadcasting station, spent the week end with his father-in-law and mother-in-law, Mr. and Mrs. William Patterson, of Hillcrest avenue. He left Pittsburgh this morning, by plane, for Radio City, N. Y.

Apparently the dirt in the storm sewer trunk constructed in Albert street last fall before the new paving was laid, south of Fairmount avenue, was not sufficiently sealed. The paving is dropping considerably along the route of storm sewer in the street, and it will require considerable work to make the situation right.

Songs of old Ireland were sung by all, after which John McCormick, Jr., favored the group with several selections on his accordion.

At an appropriate time, the hostess, assisted by her daughter, Dorothy and Jean Bender, served a lunch. Appointments were carried out in the St. Patrick's Day theme. Each guest, at this time, was presented with a tiny corsage and a green paper hat.

"I RAISE TOBACCO"

I'VE BEEN PLANTING TOBACCO FOR 20 YEARS. I KNOW CAMEL USES FINER, MORE EXPENSIVE TOBACCOS. THEY BOUGHT THE CHOICE LOTS OF MY LAST CROP. PAID ME MORE FOR MY BEST KINDS OF TOBACCO. I SMOKE CAMELS BECAUSE I KNOW WHAT FINE TOBACCO GOES INTO THEM

HARRY C. KING knows tobacco because he grows it.

TOBACCO GROWERS are in a position to speak with authority about the kinds of tobacco that go into the various makes of popular cigarettes. They actually see, at the auctions, who bids highest to get the choice lots of their own crops—and their neighbors' too. They know what cigarette does get the finer, MORE EXPENSIVE TOBACCOS. They know it's Camel. And they know that when they smoke Camels they're getting something extra.

Langs Are Home From Ten Week's Trip To Europe

Make Visit To Germany, Hungary, Austria, Rumania, And Other Lands

Mr. and Mrs. Adolf Langs, of Fairmont, returned from Europe, following a 10 week trip during which they were in Germany, Hungary, Austria, Czechoslovakia and Rumania.

Langs said that when he left his home town of Fairmont, Rumania, which formerly was in Transylvania, there were no signs of war neither did he see any enemy home. This was about March 1.

He said Czechoslovakia border of Rumania seemed to permit German newspapers to be taken into that country but no other news was allowed, none were seen in Czechoslovakia.

After arriving in Rumania, they learned there was considerable political trouble. There are about 27 parties in that country. Tension was great while Premier Goga was in office.

Asked whether the Rumanians favored Adolf Hitler, Langs said many do and it was not uncommon to see men along the streets give the Hitler salute.

He said that after King Carol proclaimed himself dictator, Carol established military rule. Soldiers displayed policemen throughout the country.

Lang was in Germany before and after his trip to Rumania.

Lang pointed out that in Germany no one is allowed to cross a street in violation of the traffic light. An officer would stop to arrest anyone for violating the rule, he explained.

Lang said he started across a street in violation of the light and was waved back by the officer. However, the officer noticed that Lang was a stranger and explained to him to cross only with the light.

He said the police he saw were all big men and the men who direct traffic are all attired in white and present a very neat appearance.

Industrially, he said, he learned Germany has made rapid strides, especially in the production of steel.

DR. E. B. RUSSELL TAKEN BY DEATH

(Continued From Page One)

and always willing to serve his friends, his community, his church, his relatives and all who needed his help or friendship.

Students Honored Him

The stream in which he was held by Westminster's student body, may be evidenced by these words in which the 1935 "Argo" Westminster yearbook was dedicated to him: "Dr. E. B. Russell, Brecher Russell, since 1921 professor of history at Westminster college, thinker, progressive, friend of both the past and future, respecting tradition and welcoming change—we of the Class of 1935 dedicate Volume 30 of the 'Argo'."

Dr. Russell took keen interest in all forms of cultural art, but found special delight in music and painting.

He was a 32nd degree member of the Masonic lodge, a leader in Rotary, the Sons of Colonial Wars and the American Historical society, and belonged to the Academy of Political Science.

He was affiliated with the United Presbyterian church, which he ably served as a member of the board of trustees.

Dr. Russell received his education in several institutions. His Ph. D. was given by the University of Vermont. His M. A. and Ph. D. were conferred by Columbia university and he had a year in Harvard law school. He was a profound student, always.

Before coming to Westminster he had taught at the University of Nebraska, and at Ohio State university.

His influence for good, his scholarly attitudes, his devotion to his work and his loyalty to the college will make his loss irreparable to Westminster.

In addition to his immediate family, Dr. Russell leaves a sister, Mrs. William Lamoureux, and a brother, William J. Russell, both of Minneapolis.

Funeral Tuesday Afternoon

Funeral services, it is announced, will be held Tuesday, March 15, at 2:30 p. m. in the Westminster college chapel and will be in charge of Dr. Robert E. Galloway, Westminster.

Dr. Russell was born in 1869 in Rev. Henry Whitcomb's company as a part of the Eaton and Hopkins expedition to Connecticut, and the Minnesota.

Through his grandmother, Lydia Sabina Miner Russell, Dr. Russell traced his ancestry back through seven generations to Lieut. Thomas Miner, who came to America in 1629 and belonged to the second Governor Winthrop's colony of Massachusetts Puritans.

SHIPMENT OF FIVE THOUSAND
FULL GROWN PHEASANTS FROM
JORDAN GAME FARM UNDERWAY

Birds Were Held Over From
Last Year For Liberation
In Spring
Will Be Released In West-
ern Pennsylvania; Law-
rence County Gets 450

During the past three weeks the
entire force of employees of the
Jordan Game Farm at Haz-
letburg has been busy overhauling
mating pens and laying fields, sort-
ing and hatching birds for the breed-
ing pens and preparing for shipping
the five thousand mature ringneck
pheasants which were held over
from spring liberation in West-
ern Pennsylvania.

The farm will carry about 2,200
ringneck pheasant hens and 500
males for breeding purposes this
season. Mating included full blooded
Mongolian, full blooded Chinese
and hybrid ringneck pheasants.
Most of the ringnecks raised for lib-
eration are of the hybrid mating,
possessing desirable characteristics
of both the Mongolian and Chinese
breeds. With this same number of
breeders last year ninety-two thou-
sand eggs were produced and it is
estimated that production would
have been over one hundred thou-
sand had the breeders been held
until the end of the laying season.
Late in June but 600 hens from the
breeder pens were shipped out in
early June to complete their laying
in the wild.

Some game breeders force their
birds for egg production into the
late summer but at the state game
farm the feeding of laying mash is
discontinued in late May and egg
production is completed by the end
of June, the breeders being fed and
handled to conserve vitality and
producing ability for producing the
best grade of eggs and chicks the
following year, rather than a large
number of eggs for late hatching.

Eggs not required for setting at
the farm are distributed to inter-
ested sportsmen and farmers for
hatching, all birds raised there-
from to be liberated on unposted
lands open to public hunting. All
requests for such eggs must be filed
with the district game protector in

charge of the county in which the
birds raised are to be liberated, and
any one in Lawrence county desir-
ing eggs for hatching this season
should the application immediately
with District Game Protector Frank
L. Coen, R. D. 5, New Castle. Posi-
tively no eggs will be given out at
the farm except through application
filed with and approved by the dis-
trict game protector. Most of the
eggs for distribution are available
during the month of May and are
distributed by counties in the order
specified by the game commission
division of game distribution. Ap-
plications should be in the hands of
the game protector now.

Shipping Now Underway
Shipping of the 5,000 mature male
ringneck pheasants which the farm
held over winter for spring lib-
eration was started last week, ship-
ments being made to the most
southern counties first due to earlier
spring conditions in those counties.
Four hundred and fifty of these
birds allotted to Lawrence Co. will
be distributed by Game Protector
Coen this week and anyone knowing
where there are any pheasant know-
ing on unposted land apparently with-
out male birds in the immediate vic-
inity should get in touch with Mr.
Coen immediately as there will
probably be no more male birds
available for distribution in Law-
rence county after the early part
of the week.

While there was a heavy kill of
ringneck pheasants in Lawrence
county last fall the law permits the
shooting of the male ringneck only
and a large number of hens were
left in the wild and passed the win-
ter in excellent condition and the
release of 100 hens and 100 males
during the mid winter and the 450
male birds to be liberated now the
county will be well stocked with
breeders for producing and raising a
large number of young pheasants in
the wild this spring and summer.

Lawrence County Quota
With the release of these male
birds this spring Lawrence county
will have received 950 ringneck
pheasants ready for liberation, 1,100
day old pheasant chicks and 1,000
pheasant eggs produced on the local
state game farm during the 1937
season. Of the 950 birds for lib-
eration 300 were young hens liberated
during the late summer of 1937 and
10 to 12 weeks old and the balance
were 1937 hatched birds liberated
after reaching full maturity. This
figure does not include the 500 two
year old breeder hens liberated in
Lawrence County in early June of
1937, but covers only this county's
quota of eggs and birds produced on
the state game farm during the 1937

season. In addition to these products
of the state game farm a number of
birds purchased from commercial
game breeders will be liberated in
Lawrence County.

Birds In Excellent Condition
The birds to be liberated this
spring are some of the finest birds
ever produced on the game farm.
They are all fully matured, bred
from early 1937 hatches, are full
winged and in excellent physical
condition. They have been held over
winter in large wire covered holding
fields, each pen consisting of a
completely wire covered field of
about one and one-quarter acres
with wire top seven feet high giv-
ing the birds plenty of room to fly
and develop good, strong wings, and
they are very active and wild nat-
ured.

Operations of the state game farms
in Pennsylvania is financed by the
sale of hunting licenses and pen-
alties collected for violation of the
game laws and receives no approp-
riation from the general fund there-
fore are operated without cost to
the tax payer who does not hunt.

**Eckert Opposes
President's Plea
On One Tax Bill**

**Eckert Also Votes In Favor Of
Amendment Increasing Tax
On Hard Liquor**

By ARTHUR C. WIMMER
(Special Washington Correspondent, New
Castle News)

WASHINGTON, D. C., March 14.
Representative Charles R. Eckert of
Beaver has broken sharply with
President Roosevelt by opposing the
"third basket" tax on family and
closely held corporations.

President Roosevelt is very much
in favor of this tax. It was largely
at his request the tax was written
into the revenue bill by the House
Ways and Means committee. How-
ever, by a vote of 224 to 143 the
house has stricken this new tax from
the bill. Representative Eckert be-
lieves one of the Democrats who be-
lieved the president on this issue and voted
to strike out the tax.

By so voting, the Beaver congress-
man refused to support this New
Deal item especially recommended
by the White House.

Mr. Eckert also voted for an
amendment increasing the tax on
hard liquor 25 cents a gallon. This
amendment was passed by a 290 to
96 ballot.

Congressman Eckert, however
stood by the president when the
house by a 201 to 181 vote approved
an amendment imposing a special
excise tax on imported pork and
pork products. This amendment is
contrary to the president's reciproc-
al trade program. Mr. Eckert
voted against it.

**Changes In Bank
Capital Structures

By ARTHUR C. WIMMER
(Special Washington Correspondent, New
Castle News)

WASHINGTON, D. C., March 14.
The comptroller of the currency has
approved changes in the capital
structure of banks in Butler and
Slippery Rock through the retire-
ment of stock.

The First National bank of Slip-
pery Rock will retire 30 shares of
Class A preferred stock with a par
value of \$1,500. This will leave out-
standing \$43,500 of Class A, \$25,000
of Class B, and \$50,000 of common
stock.

The Butler County National Bank
and Trust company will retire 200
shares of preferred stock with a par
value of \$25,000. This will leave out-
standing \$175,000 worth of preferred
and \$600,000 worth of common stock.

**Civic Music Opens
Campaign Monday**

To Conduct Week Campaign
For Memberships For Com-
ing Winter Season

Opening tonight with a meeting
in the lounge room of the Cavendish
Hotel, the Civic Music Association
will conduct a campaign for mem-
bers for the coming fall and win-
ter season. Under the direction of
Ross D. Rosenberger a committee
has been named to conduct the
campaign and it is hoped this year
to exceed last season's total by sev-
eral hundred.

Although the Civic Music Associa-
tion has been functioning but two
years it has brought some outstand-
ing attractions to New Castle. The
number and quality of the attrac-
tions depend entirely upon the
membership and this year it is hoped
to headline the concert season with
Giovanni Martinelli, world
famous tenor.

The Civic Music Association is a
non-profit making venture. It is de-
signed entirely to bring attractions
of merit to New Castle towards the
end that New Castle people may en-
joy the finest talent of the music
world.

Season tickets are priced at \$5
which gives the holder the entire
season's offerings without further
costs. Should there be enough
memberships disposed of there will
be four numbers instead of the us-
ual three. Singers, instrumentalists,
chamber music groups, choruses, all
of these are possible if the mem-
bership warrants it.

The Human Side—for 1937

IF WE WERE to let the figures above describe the
Metropolitan's activities last year, the story would be
far from complete—for there is a HUMAN side of the
ledger, too.

Policyholders and beneficiaries received from Metro-
politan in 1937 almost \$526,000,000—much of it in an
hour of genuine need.

Death claims were paid
on 6,107 policies in force less
than three months, and on
18,562 policies in force less
than one year—dramatic
proof of the value of life in-
surance.

One could scarcely name a catastrophe which took
human lives, in the United States or Canada, where
funds provided by Metropolitan policies had not helped
lighten the burden for afflicted families.

Each day, visiting nurses
representing the Metro-
politan ministered to persons in-
sured under Industrial, In-
termediate, and Group poli-
cies who were in need of
skilled care. These nurses

made 3,766,240 calls during the year.

Every half second during 1937, a Metropolitan book-
let, containing useful health information, was placed in
somebody's hands.

Each working day throughout the year, new Metro-
politan investments went
into communities in various
parts of the United States
and Canada. These invest-
ments helped to create a de-
mand for goods, aid realty
values, give employment,
and serve other modern social and economic needs.

There is more we would like to tell you about our
1937 Report. This is contained in a booklet entitled, "The
Human Side of the Ledger," which we shall be glad to
send to you upon request.

START HEARINGS ON PROPOSED TRADE TREATY

Many Protests Are Indicated

Hearings Being Held In Public Auditorium Of Commerce Building At Capital

BRITISH DELEGATION READY FOR PARLEY

By EDWARD B. LOCKETT
Special Staff Writer

WASHINGTON, March 14.—Public hearings preliminary to formal negotiations for a reciprocal trade treaty with Great Britain were begun here today. The British delegation, headed by Mr. J. H. Chamberlain, arrived in the city last night. The hearings will be held in the public auditorium of the commerce building. The British delegation is expected to stay at least two weeks, and possibly longer. The treaty, when completed, will necessitate a number of changes in the existing trade laws between this government and Canada, and hearings on changes in the Canadian treaties will be started in April.

Most of today's witnesses brought New England's protest against any concession to the British on wool manufactures. Others were interested in textiles, live stock, manganese, aluminum, rubber products, glass and malt beverages.

Hundreds of Requests
Two days of hearings will be conducted before the entire membership of the committee for reciprocity is heard. The committee is expected to report to the state department, the treasury, the agriculture and commerce departments. On Wednesday the committee will be split into four sub-groups in order to handle the hundreds of requests for hearings on products under discussion in connection with the trade treaty.

The British delegation which has been in Washington for some time carrying on general conversations with American negotiators, was on hand for the hearings, but of course

First Report Luncheon Of Y. W. C. A. Ingathering Will Take Place Tuesday

First report luncheon for the 1938 Y. W. C. A. membership ingathering will be held at the Y. W. C. A. on Tuesday from 12 to 1 p. m. following the Lenten Bible class.

This year the members of the Elm street Y. W. C. A. branch for colored women are serving the meals for the membership workers in order to help raise the quota which each of their membership groups have pledged. This group quota will be used to pay the "Y" membership of any of their members who are out of work and for repairs on the Elm street branch building.

The slogan "Youth, the World's Future" is very appropriate for this Elm street branch, which begins serving youth in a "Well Baby" clinic on Thursday afternoons under the Anti-tuberculosis society and the

church at noon. Miss Martha Bigley is serving as general chairman for the event, and Miss Helen Wilson is secretary. Registrations for the luncheon are being handled by these two young women. Many representatives of Girl Scouting from New Castle and the surrounding communities are planning to attend this event and according to Emily C. Rice, commissioner, a large crowd is expected. The New Castle Girl Scout Council is serving as host council for the meeting this year.

Card Of Thanks
We wish to thank our friends, neighbors and relatives for the kindness and sympathy extended us in our bereavement. Also for beautiful flowers and care during our illness.

Don't Worry If Your Knees Shake

(Special To The News)
NEW WILMINGTON, March 14.—Do your knees get dry, the palms of your hands get wet, and your knees shake a little when you address public groups? If so, don't worry; you're only human, according to Glenn Taylor, instructor of speech and debate coach of Westminster college.

Sucking a lemon just before speaking and keeping the throat dry is merely a platform superstition, according to Mr. Taylor. Smokers' throats are likely to get dry before non-smokers. The best preparation before speaking is to eat lightly, rest well, and carefully prepare the speech you are to make.

Large, matronly-type women, with deep, rich voices are the best feminine speakers, since they have more of the positive masculine appeal.

The Westminster coach believes that the conservative, reasoning type of speaker found in the north is preferable to the emotional, arm-waving orator still a favorite in the southern states.

WASHINGTON AT A GLANCE

Discuss What Taxes Should Do

Washington Struggles Over Issue As New Taxes Are Subject Of Dissension

SOME ECONOMIC PROBLEMS BAD

Washington, March 14.—The House of Representatives today began a discussion of the pending tax bill, which has not been very placidly emphasized as a popular issue, for the subject is highly complicated and technical.

The essential point is: What should be the tax's purpose? To raise money for the government's support, and with no other end in view? Or is it sound practice to employ it as a means of arriving indirectly at objectives entirely distinct from the mere matter of revenue-raising?

What should be the tax's purpose? To raise money for the government's support, and with no other end in view? Or is it sound practice to employ it as a means of arriving indirectly at objectives entirely distinct from the mere matter of revenue-raising?

Anything can be accomplished by taxation. He told a story of the stamping out of the taxation prescription of a terrible disease known as phossy jaw. This complaint prevailed among workers employed in factories engaged in producing old-fashioned pipe-pipe matches. The phosphorus settled in the bones of these workers' faces and ate them up alive, as some radium workers are eaten up now.

Match manufacturers said it was too bad, but unavoidable, unless we went back to the days of flint and steel.

However, the representatives' way, and means committee, of which Ralston was a member, slipped a stamping tax upon phosphorus matches, match-makers promptly formed a new match-making formula to dodge the tax, and phossy jaw disappeared.

AS A COERCIVE MEASURE

This was all right. Nevertheless, it never was intended to be a tax AS a tax. It was a coercive measure. There was no thought of raising money by it. The notion was to stimulate match-makers chemically imaginative activities. It was the reverse of a revenue-raising plan.

Now various New Deal taxes, similarly, are imposed less with the idea of feeding the treasury than on the theory that they will compel certain affected interests to do so-and-so.

A DOUBTFUL TAX

The much-discussed "undistributed profits tax" is conspicuously illustrative.

Theoretically (and occasionally sometimes, maybe, in fact) big companies unduly hang on to their profits, as reserves, instead of paying them out in dividends, thus keeping that much cash out of circulation, to the prejudice of our resources.

All the same, even a big corporation may legitimately see fit to hang on to some of its earnings for subsequent investment in desirable enterprises—a good thing in the long run.

An "undistributed profits tax" is aimed at forestalling such a policy—not by prohibiting it but by taxing it to death.

Not all these schemes are as defensible as the one against phossy jaw.

A DIFFICULT PROBLEM

A lot of America's economic date back so far that it is almost impossible to correct their badness.

As Bernard Baruch recently said before a congressional committee, "We started the chain of events that upset our balance when we adopted a system of protective tariffs that deliberately subsidized our industries at the expense of our agriculture."

There are only two possible solutions. One is to knock down the old artificiality of the tariff. The other is to build up a new artificiality (agricultural) to offset it.

Mr. Baruch reasons that "only the latter alternative is possible."

But is it possible? Repeated farm bill mixups indicate that putting the tariff in reverse, for agriculture's benefit, is well nigh a hopeless undertaking.

Arithmetic, set wrong end first, is confusing.

The New Deal is "frassling" with a difficult problem.

Dr. Chas. Freeman At Westminster For Almost Fifty Years

Has Twice Served As President Of College During Half Century

(Special To The News)

NEW WILMINGTON, March 14.—For almost half a century, since 1894, Dr. Charles Freeman, head of the Westminster College chemistry department, has been connected with the college. He has been mathematics and chemistry professor, dean, and twice president of the college in his 44 years on the faculty. After a year at Johns Hopkins University in 1894, four years before the Spanish-American War, Charles Freeman learned of a vacancy at Westminster College from a New York agency. From a broker, he obtained enough money to finance a railway trip for an interviewing plan.

Stepping off the Sharpville train on a hot June day, his interest in the job waned as he walked up the dusty dirt road and viewed the New Wilmington of 1894, of shabby frame buildings, unpaved streets, board walks, and pasture fields. After making the necessary applications and spending a sleepless night listening to the college boys serenade their sweetheart at Ladies' Hall, (now Hillside dormitory), he left for Meadville, his home, with a contract in his pocket to begin teaching the following September.

Professor Freeman was chosen first dean of the college in 1907, and eight years later, he was made president between administrations. He continued as dean of the college until 1932.

In all of his 44 years of service, Dr. Freeman has left the college only once, for a year in California, fishing and duck hunting. A second trip to the coast was interrupted by a requested return to the dedication of the new Old Main Memorial and an LL.D. degree in 1930.

Mrs. 'Billy' Sunday Compliments Gibson And City Mission

While in the city, Mrs. "Billy" Sunday stopped in at the City Rescue Mission, and after looking over the mission rooms, and hearing of the work being done, complimented Archie Gibson, the superintendent, on the nice appearance of the mission, and how favorably it compared with other missions she had visited.

Having just come from Los Angeles, she talked of the recent flood in California. Mrs. Sunday said it rained continuously for fourteen days, and it made her think of the drowning of the world, mentioned in the Bible, when it rained for forty days and forty nights.

Mrs. Sunday said that had Mr. Sunday lived, they would have celebrated their golden wedding next November.

Americans Today More Air-Minded Than Ever Before

(International News Service)
KANSAS CITY, March 14.—The people of America are today growing more air-minded, figures released by John B. Walker, vice president in charge of traffic for Transcontinental & Western Air, Inc., showed today.

During the last year, TWA carried 152 per cent more passengers than in the preceding year; 885 per cent more air express, and 569 per cent more mail.

An indication that this year may far overshadow the 1937 record was seen in a report for the first 10 days of 1938 showing an increase in "passenger miles" of 35 per cent over the same period last year.

Westminster Co-ed Seniors Against Silk Stocking Ban

NEW WILMINGTON, March 14.—Westminster college senior co-eds feel a definite sympathy for the Sino-Japanese conflict, but their sentimentality is not strong enough to cause them to lay aside their silk stockings in a boycott on Japan's chief export to the United States.

By a vote of two to one, senior co-eds indicated that they preferred excellent grooming to economic pressure on the silk-making nation of Japan.

AWARDED SCHOLASTIC HONOR

A New Castle youth, Edwin P. Norris, son of Mr. and Mrs. John W. Norris, 317 Euclid avenue, was one of 55 students in engineering at Pennsylvania State college cited for distinguished scholastic records during the first semester of the current academic year by Dr. Harry P. Hammond, dean of the engineering school. Norris is a senior.
